Projects

Tailwind CSS

- Created a website through visual studio using Tailwind CSS and HTML to display a city and the weather along with images to make it visually more appealing.

Portfolio Website

- Designed a website using HTML and CSS to be able to display social media as well as resume and other projects that were worked on.

Wordle Program

- I designed a wordle using python to accept user input and match it against the list of words within the program.
- When the user guesses it correctly the wordle congratulates the player if it is wrong you get 4 more attempts to guess it correctly

LEADERSHIP

National Honor Society

Team Lead

- Led a team of 6 members to help during a 911 event for the city of winter haven.
- We were able to complete all the tasks assigned by appropriately accommodating every member to the role where they would be most efficient, which led to finishing an hour early.

Winter Haven, FL

August 2021 – May 2023

Key Club

Garbage Lead

- Was tasked with overseeing other people on garbage duty as no one else was available and I stepped up for the task.
- Trash all around was reduced heavily and the capacity of trash cans never reached 100%

Winter Haven, FL

August 2021 – May 2023

COMMUNITY OUTREACH

El Tabor

Church Volunteer

- We had to build an extra building for Sunday school and for extra capacity if the church was ever too full.
- Teamwork was the most important component as it was many people working together to build a stable structure.
- The building was complete in 3 months and increased the maximum capacity by around 50 people.
